MESSAGE FROM THE PRESIDENTS

Dear colleagues,

It is with great pleasure that we welcome you to the 28th Panhellenic Congress of the Orthodontic Society of Greece and the Orthodontic Society of Northern Greece, co-organized with the Orthodontic Society of Cyprus and with the participation of the Hellenic Professional Union of Orthodontists. The congress will take place on December 6–7, 2025, at The Met Hotel in Thessaloniki.

In this premier event of our Societies Greek and international renowned speakers, with their innovative approaches, will present the latest developments in the entire spectrum of modern orthodontics, and will provide answers, knowledge, but also guidelines for the daily clinical practice.

The Scientific Program scheduled by the Organizing Committee and the Congress Coordinator includes many presentations, round tables, oral and poster presentations with a wide range of topics, while the established round table of the Hellenic Professional Union of Orthodontists will again this year provide us with answers on topics related to legal issues and financial aspects of our specialty as well as other current professional themes.

As done at every Congress the best oral and poster presentation as well as the best Publication for the year 2024–2025 will be awarded.

In our exhibition area there will be a great participation of big commercial companies, which will exhibit up to date and innovative products and materials, but also of dental laboratories that are inextricably linked to our daily clinical practice. We sincerely thank them for honoring us and supporting us with their presence.

Finally, based on the system of Continuing Professional Education of Dentists, the 28th Panhellenic Congress will be organized by the Institute of Scientific Issues of the Hellenic Dental Federation.

The Organizing Committee and the Congress Coordinator hope that the 28th Conference, with your active participation in its scientific events, will highlight modern trends and research data and will meet the expectations of all colleagues for continuous information and the formation of a uniform communication code in the management of our patients.

Waiting to welcome you to beautiful and hospitable Thessaloniki.

With kind regards,

Sincerely,

E. G. Kaklamanos

MESSAGE FROM THE ORGANIZING COMMITTEE

Dear Colleagues,

It is with great pleasure that we welcome you to the 28th Panhellenic Congress of the Greek Orthodontic Society and the Orthodontic Society of Northern Greece, which is co-organized with the Cyprus Orthodontic Society and the participation of the Hellenic Professional Union of Orthodontists, with a physical presence, but also with the possibility of online participation, on 6-7 December, 2025, at The Met Hotel, in Thessaloniki.

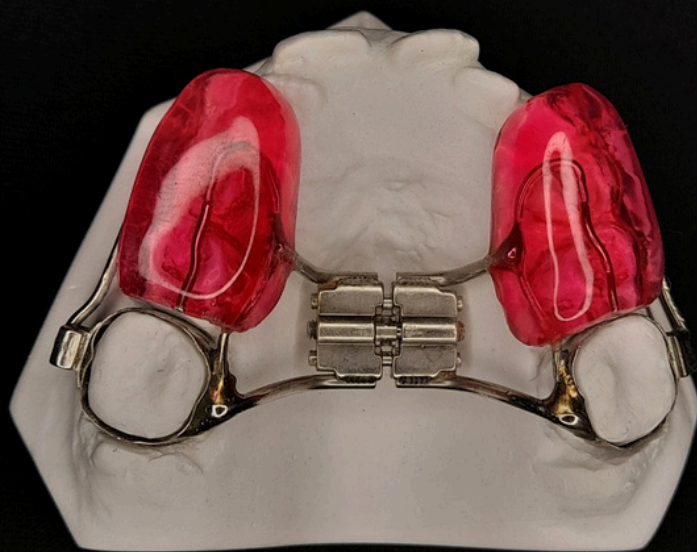

The ambition of both the Organizing as well as the Scientific Committee of the Congress is that through the presence of internationally accredited Greek and foreign Keynote Speakers and their innovative clinical and research expertise, the Congress will live up to the highest standards for a thorough update and a constructive opinion exchange regarding the challenges, the developments and concerns of contemporary orthodontics.

Furthermore, in order to achieve those goals, we expect your participation in the picturesque city of Northern Greece, Thessaloniki, which is famous for its beauty, its flavors and its numerous opportunities for amusement.

Respectfully,
The Organizing and Scientific Committee

**Λεπτόρρευστο,
αλλά σταθερό
σαν πάστα**

Το υλικό εφαρμόζεται όπως
ένα λεπτόρρευστο, αλλά
παραμένει στη θέση του
σαν πάστα χωρίς να στάζει
ή να χύνεται.

**Χωρίς
φυσαλίδες**

Ο σχεδιασμός της σύριγγας
διασφαλίζει την εφαρμογή
του υλικού με σχεδόν
μηδενικές φυσαλίδες,
μειώνοντας τον κίνδυνο για
αποκολλήσεις, σπασίματα ή
παγιδευμένες τροφές.

**Ανθεκτικό
στους λεκέδες**

Με εξαιρετική αντοχή σε
λεκέδες από τρόφιμα και
ποτά, διατηρώντας την
άψογη αισθητική του

**Εργονομικό
και ακριβές**

Ο αποκλειστικός σχεδιασμός
της σύριγγας προσφέρει
μεγαλύτερη ακρίβεια, έλεγχο
και ευκολία στη χρήση, ενώ
μειώνει τη σπατάλη υλικού.

Ανθεκτικό

Το υλικό με νανο-σωματίδια
εξασφαλίζει σταθερότητα
μεγάλης διάρκειας και
διατήρηση του σχήματος
των attachments.
